

WELCOME TO WINTAL 2011

In 1997, Wintal was established as a supplier of innovative audio & video products. Our organisation entered the Australian market by introducing a range of high quality DVD players, CRT televisions and hi-fi speakers. Most of our earlier televisions were manufactured in Europe incorporating Panasonic tubes to ensure the best performance and reliability. Since then, Wintal's product range gradually expanded to include AV and stereo receivers, DVD recorders and mini systems, headphones and, most significantly, HD digital set top boxes and personal video recorders (PVRs). We also manufacture a full range of HD LCDs and like in the days of CRT, our LCD's only incorporate the best panels available from the world's largest manufacturers like LG, Samsung and AU Optics.

Wintal was one of the first brands to import set top boxes to Australia. Today the Australian government is switching to digital and will finish broadcasting analogue TV transmission over several stages. Wintal's experience in DVBT and our commitment to research and develop new technologies will further advance our digital receiver's reliability and offerings. Our latest HD set top box and personal video recorder is a testament to our commitment to continue improving our products year on year.

Wintal's office, warehouse and service centre is located in West Melbourne, Victoria. We have nationwide distribution channels via an array of dealers including retailers, installers and distributors. If you require further information or require assistance relating to a Wintal product please contact us on 1800 337 366, or visit our website at: www.wintal.com.au.

C6RM-CH

**[100
WATTS]**

The high end range of Wintal Ribbon speakers consist of a thin metal-film ribbon suspended in a magnetic field. The electrical signal is applied to the ribbon which moves with it, thus creating the sound. The advantage of a ribbon driver is that the ribbon has very little mass; thus, it can accelerate very quickly, yielding very good high-frequency response.

TERMS & CONDITIONS Product features in this brochure are subject to change without notice. Availability of products are offered on a while stocks last basis. Most products have been photographed in-house and are identical to what you will receive, but manufacturers may make improvements during the life of a product without notice and this may result in a slightly different design. If certain product features are important, please contact your dealer for confirmation before ordering the product. Information presented in this brochure has been checked and is believed to be correct at the time of printing, however, errors and omissions are accepted. Wintal can not guarantee specifications, or features of a product as they may change after printing.
